

Christina Cummings

Outreach Coordinator, Gulf Coast Florida Region

Christina Cummings has spent most of her life in the Tampa Bay, FL area. She has always been dedicated to helping others, but it wasn't until her second year of college that she realized the best way to help people would be through the military.

She joined the Coast Guard and spent four and a half months deployed overseas in countries such as Georgia, Africa, Romania, Greece, and Turkey. While she was in the Coast Guard she obtained training and qualifications in Firefighting, Law Enforcement, Search and Rescue, 378 foot Cutter Operations, Flight Operations, Engineer and Security Watches, Basic and Advanced Damage Control, Temporary Cutter man, OCD Pepper Spray, and held a Security Clearance.

Now that she is out of the service, Christina continues to be very supportive of military members and their spouses. She is married to a Coast Guard Fireman Apprentice. Most recently, she has volunteered at her spouse's Search and Rescue Unit, helping the active members who reside there and the families in the community.

Christina is a college student studying to obtain a Doctorate Degree in Psychology with the hopes of becoming a contracted therapist for Coast Guard Active Duty, dependents, and Veterans.

Christina joined the MSCCN in February of 2010. She has a passion for dedicating herself to helping military members, spouses, and veterans in any way she can.
